a) SAILCOAT FOR MAINSAIL WITH LUFF SLIDE

Measure:

1. front of mast to clew of mainsail on boom
2. clew of mainsail to aft end of boom
3. circumference of mast at collar height
4. height of slide stack above.....
5. extension of headboard off back of mast when main stowed

With main stowed on boom measure circumference of sail & boom at the following distances from back of mast:-

1. circumference at 1 foot from back mast
2. circumference at mid foot length of sail
3. circumference just forward of clew

Does mast have any winches which will be covered by sailcoat?

Please sketch or give dimensions, reference to boom height

If Lazy Jack slots are required please give dimensions from back of mast

..... / /

b) SAILCOAT FOR BOLTROPE LUFF MAINSAIL

Does mast have any winches which will be covered by sailcoat?

Please sketch or give dimensions.....

With main stowed on boom measure circumference of sail & boom at the following distances from back of mast

1. circumference at 1 foot from back mast
2. circumference at mid foot length of sail
3. circumference just forward of clew

Does mast have any winches which will be covered by sailcoat?

Please sketch or give dimensions, reference to boom height

c) STACKPACK MAINSAIL LOOSE FOOT / BOLTROPE FOOT

Measure:

- 1. back of mast to mainsail clew on boom
- 2. back of mast to end of groove on aft end boom
- 3. back of mast to front of track on boom
- 4. reef openings, distance from clew Port
- 5. reef openings, distance from clew Starboard.

With main stowed on boom measure circumference of sail & boom at the following distances from back of mast:-

- 1. circumference at 1 foot from back mast
- 2. circumference at mid foot length of sail
- 3. circumference just forward of clew

Measure:

- 1. height of slide stack above top of boom
- 2. circumference of mast at collar height
- 3. extension of headboard off back of mast when main stowed

Please sketch position of any winches etc which will affect the mast boot.

Reference measurements to top of boom.

Please complete the following for ALL types of sailcoat:-

We normally manufacture from Sunbrella PU coated acrylic canvas which allows the mainsail to dry out.
